

ELOCNetwork, A local to global digital media distribution technology network, a division of ELOC Holdings, Corp. The ELOCNetwork is comprised of a growing list of proprietary Web TV Channels, 100's of Twitter accounts, Facebook accounts, LinkedIn accounts, Youtube accounts, social directories, social bookmarking, pod casting and much more. All used for delivering social messages.

The ELOCNetwork: ☐ **Leverages a proprietary & consolidated digital distribution network;** with access to local and global consumer markets all over the web. Our digital distribution channels

benefit

the entertainment industry, independent film makers, content providers, publishers, advertising agencies, producers, businesses, educational institutions, corporations and the list goes on. The consumer reach is global. When you think of the

ELOCnetwork

, think of off-line cable networks. We operate in a very similar way but online.

ELOCNetwork Channels·

ELOCNetwork TV Channels - ELOC Network is the online Hub for a consolidated group of web TV platform channels. The web channels offers online digital tv programming, resources, education, music, entertainment and more targeted industries. Utilizing ELOC's online and off line distribution and marketing technology drives local to global traffic or viewers to the web TV channels.·
